

Hotel Restaurant

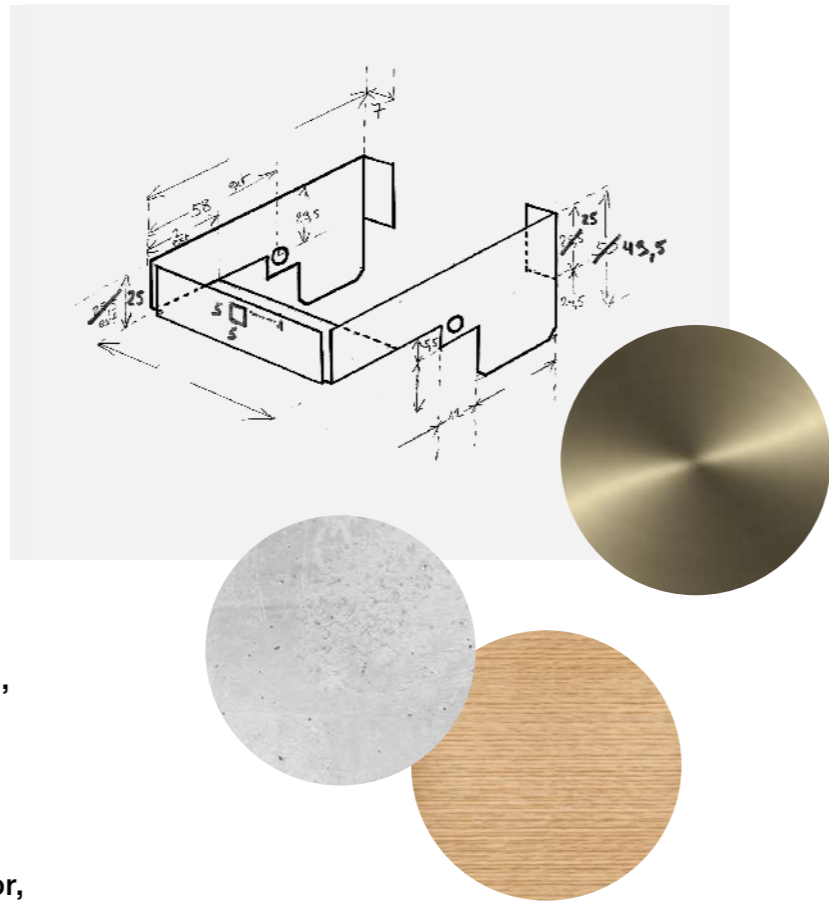

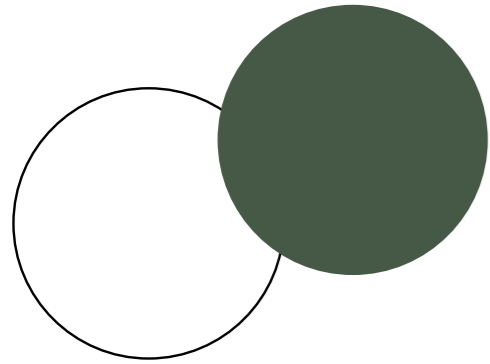

Béhar supports hotels and restaurants, both independent and major brands, by offering emergency lighting solutions that combine design and performance.

At a time when hotels and restaurants are rethinking their concepts to offer unique experiences, we provide aesthetic, discreet emergency lighting solutions that blend seamlessly with their brand identity.

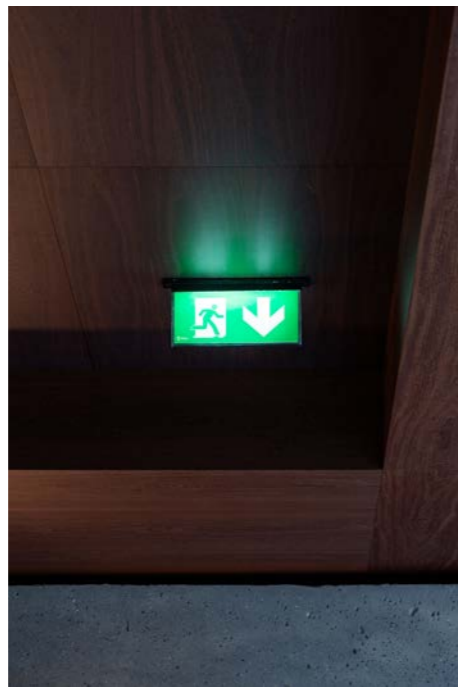

Design for all architectures

Since 1960, Béhar has been designing emergency lighting fixtures with clean lines, made from sustainable materials.

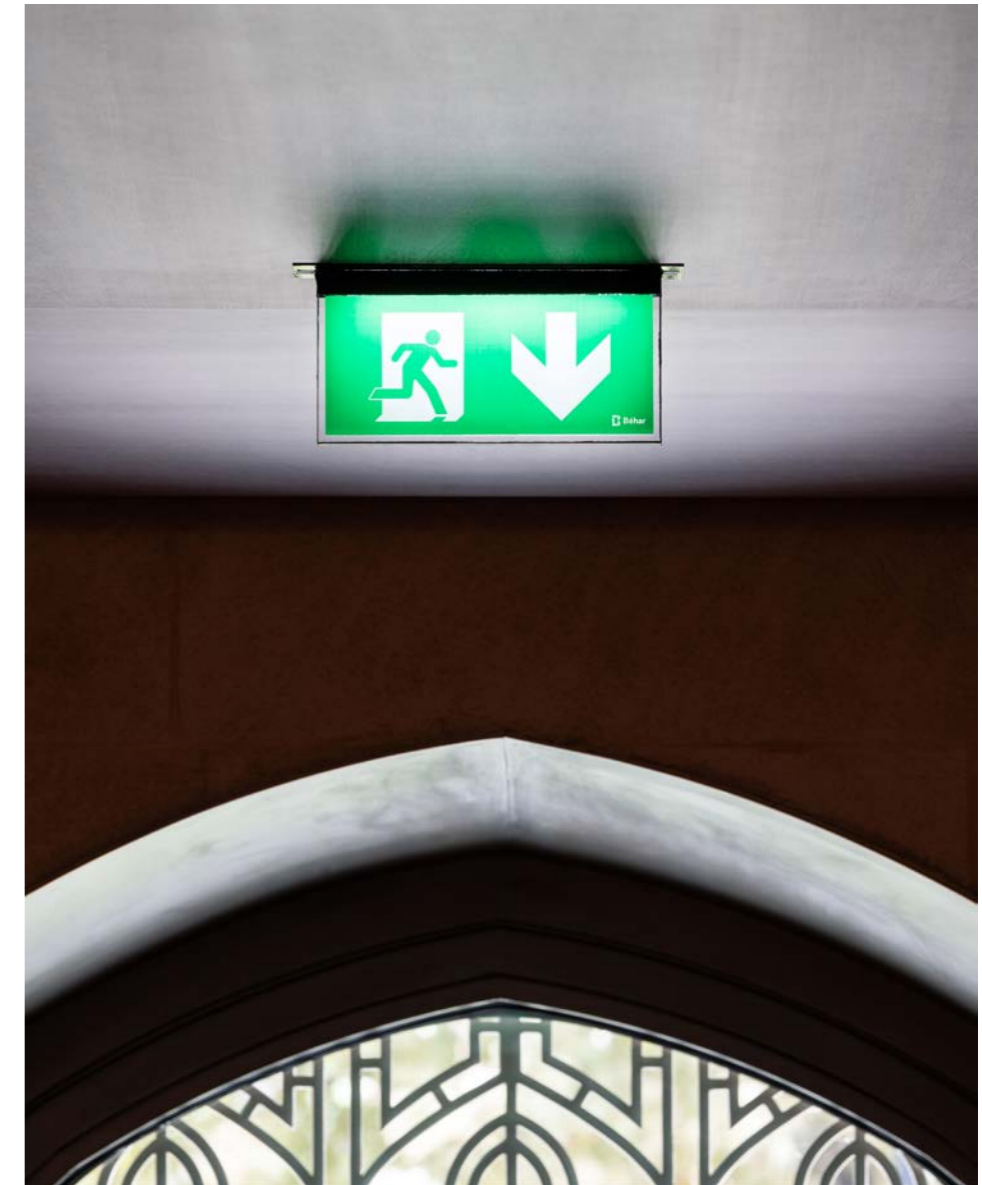

They blend naturally into any architectural environment.

Every detail can be customized: shape, color, finish, mounting type, accessories, surface treatment, etc., to meet the aesthetic requirements of each project.

Customization

Integration of lighting while preserving the architecture.

Our emergency lighting solutions

All our solutions are available in addressable, self-test, power central source, and self-test bi-function versions. Custom solutions and special finishes available on request.

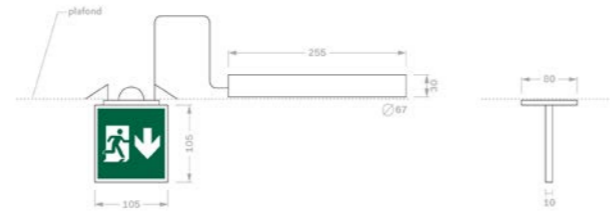

A non-exhaustive selection of our solutions — find our full range on our website:
