

Cinema Theatres

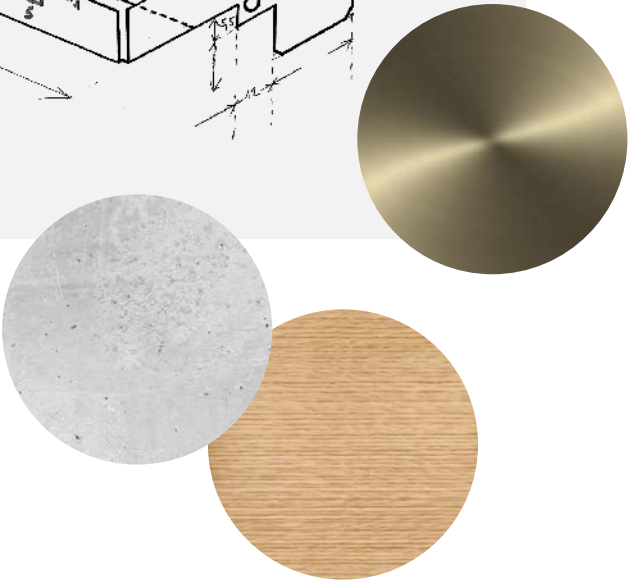

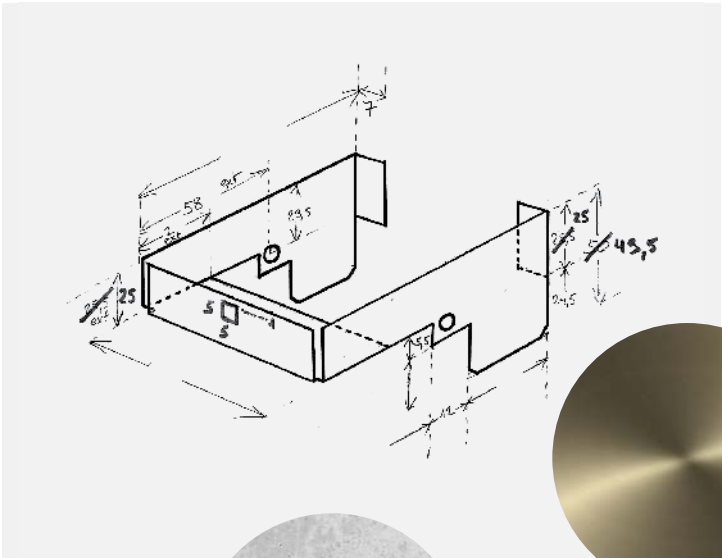

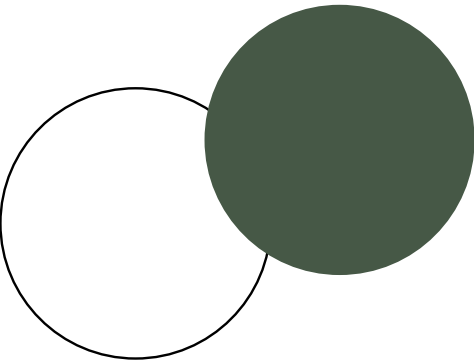

Béhar supports the various stakeholders involved in the design, operation, and maintenance of performance venues and cinemas — from small independent theaters to large multiplexes.

Our expertise, combining technical mastery and innovation, enables us to deliver tailor-made solutions for the seamless and aesthetic integration of emergency lighting within darkened auditoriums.

Design for all architectures

Since 1960, Béhar has been designing emergency lighting fixtures with clean lines, made from sustainable materials.

They blend naturally into any architectural environment.

Every detail can be customized: shape, color, finish, mounting type, accessories, surface treatment, etc., to meet the aesthetic requirements of each project.

Customization

Light optic designed to minimize glare and light halos, ensuring visual comfort in darkened auditoriums.

Our emergency lighting solutions
